Hope: To desire with expectations of fulfillment with a hopeful attitude.

Freewill: #1 is voluntary, done made, or given freely and without compulsion"; (a voluntary sacrifice). #2 done on purpose: intentionally. #3 regulated by will of (voluntary behavior).

Choice: #1 the act of choosing: selection. #2 the power or opportunity of choosing: option. #3 a variety offered for selection.

Sequel: logical consequence of a literary or cinematic work continuing a story begun in a preceding one. Thus, the following essay (The Human Heart).

Lastly, for you the naysayer-doubters, I would highly recommend reading the book written by, Jim Denney © author, titled (Answers to Satisfy the S O U L Clear, straight Answers to 20 of Life's Most Perplexing Questions). It will verify the valid-credence through Science, Physics, and Anatomy relative to (The Science of **God's** Earth), (The Analytic Miracle Organism-Living-Life-Forms), (The Anatomy of the Sun), (The Earth Moon System), and (The Astronomy of **God's** Cosmos). It's the logical proof of **God's** existence of being the **Devine Creator** of all that there ① **is** ② **was** ③ **and Ever will Be.**
